SUMMARY

Highly skilled and experienced with 8 years of expertise in designing, developing, and maintaining robust web applications. Proficient in utilizing the latest technologies, frameworks, and tools in the .NET ecosystem. Proven ability to contribute to the entire software development lifecycle, from requirements gathering to deployment and support.

EXPERIENCE

Sr. Software Engineer (.Net)

Blue soft Infotech

January 2019 - Present

- Directed the Agile project lifecycle, leading requirements gathering, sprint planning, and transition phases; optimized team efficiency and collaboration, resulting in a 20% faster project completion rate.
- Involved in the Design, Development, and Testing of Web Forms and Web Services using **ASP.NET, Web API, Blazor App, React, MVC, XML, Ajax, SQL, Server, C#, and .NET Framework, Azure DevOps, Git.**
- Conducted data transformations utilizing SQL Server Query Optimization techniques and indexing strategies, resulting in a 20% increase in database performance.
- Implemented regular maintenance procedures for applications using .NET technologies, ensuring optimal functionality and security.
- Implemented standardized coding practices resulting in a 20% increase in code maintainability.
- Devises or modifies procedures to solve complex problems considering computer equipment capacity and limitation, operating time and form of desired results.

Sr. Software Engineer (.Net)

E-launch Infotech

January 2018 - December 2018

- Developed the web applications majorly in **C#, ASP.NET MVC, Web API, Angular, JavaScript, CSS3, and HTML, Git, TortoiseSVN.**
- Collaborated with Product Manager to document requirements, resulting in a 20% decrease in project timeline.
- Utilized technical skills in .NET to implement modifications to XML files, ensuring seamless integration with business needs.
- Used web API's for a physical connection between Client-side and Server-side code and RESTful services too.
- Created Stored Procedures, T-SQL/PL/SQL statements, Functions to manipulate the databases.
- Implemented ASP.NET MVC Routing, restructured code to improve application readability, optimization, and maintainability, used MVC bundling to improve application performance.

.NET Web Developer

OOZEE Technology

January 2017 - December 2017

- Participated in technical planning & requirements gathering phases including design, code, test, troubleshoot, and document business software applications.
- Experience in Application Development Using SQL Server Database in Developing Stored Procedure, Views, Joins.
- Post-release maintenance bug fixing and adding new features based on requests by offshore feedback during the project migration/testing.
- Involved in debugging, bug fixing, the testing phase of the application, and error handling routines.
- Responsible for programming and testing customizations in support of customer-specific business requirements.
- Developed web applications majorly in **C#, ASP.NET MVC, C#, JavaScript, CSS3, and HTML, jQuery, TFS Server.**

SKILLS

- **Programming Languages:** C#, ASP.NET, Blazer App, ADO.NET, LINQ
- **Front End:** HTML CSS, Bootstrap CSS, JavaScript, jQuery, Angular, React, MVC, ASP.NET Core
- **Framework:** .NET Framework 4.0/4.5/4.6,7, 8, Entity Framework 6.
- **Scripting languages:** JavaScript, J-Query, Typescript
- **Designer/Editor:** Visual Studio, SQL Server Management Studio, VS code
- **Databases:** PostgreSQL, SQL Server and MS Access, SQL Server Stored procedures, User Defined Functions, Triggers, Views, Queries, Performance Improvement.
- **Database Tools:** SQL Server Reporting Services (SSRS), SQL Server Integration Services (SSIS), SQL Agents
- **Other Utilities/Tools:** Web Service, Windows Service, Postman, Swagger
- **Web/App Servers:** IIS Server
- **Version Control:** Azure DevOps Server, TFS Server, Git, GitHub, TortoiseSVN.

EDUCATION

Bachelor of Computer Application

Veer Narmad South Gujarat University • Surat

Master of Science Information & Technology

Sikkim Manipal University • Surat
